Bismarck's Proposition for the Baptism of Denmark in the Prussian Bund-King Christian Declines.

VIENNA, Sept. 19, 1874. The New Pree Press, in its issue to-day, says that the expulsion of Danish sympathizers from Schleswig is attributable to a design of Prince Bismarck to force Denmark to enter the German federation.

"Prince Bismarck," says the New Free Press, "proposed to King Christian of Denmark that he dd enter the Bund with his whole kingdom, Germany then to cede the whole of Schleswig to Denmark and to guarantee the integrity of the territory of Denmark; that the Danish fleet should become an integral part of the German fleet, and that German porcs should be established in the Danish colonies."

DEPRESSED TRADE.

Manufacturers of Cotton and Woollen Goods in Council.

PROVIDENCE, R. L. Sept. 19, 1874. A large meeting of manufacturers was held in the Board of Trade Rooms this afternoon for the purpose of a conference upon the subject of the depressed state of the market for cotton and woolien goods. Colonel Henry Lippitt was elected Chairman and F. P. Little Secretary. Remarks were made by several gentlemen, and it seemed to be generally agreed that unless the production of goods was diminished and an enhancement of

of goods was diminished and an enhancement of prices obtained it would soon be necessary to stop the mills altogether to prevent the impoverishment of their owners.

The following named gentlemen were appointed a committee to confer with the manuscurrers generally upon the subject, and take such action as they may deem expedient:—James Y. Smith, M. B. J. Goddard, Jesse Metcaif, Charles E. Whitin, James H. Classe, John O. Waterman, Edward P. Tatt, Governor Henry Howard, Stephen Marris and Henry Lippitt. surfix and Henry Lippitt.
Subsequently the following resolution was unani-ously adopted:—

Resolved, as the sense of this meeting. That an immediate curtailment of the production of our cotton and woollen mills is absolutely necessary for the conservation of the interests of our State and community.

WASHINGTON.

WASHINGTON, Sept. 19, 1874.

The Redemption of Currency.

The National Bank Redemption Agency gives notice that in consequence of the expansion of the five per cent fund and the failure of the national banks to make a prompt and general response to the request for an additional deposit of five per cent of their circulation, it has become necessary to stop the redemption of national bank notes for a short time. Remittances of national bank notes which are now in transit will be counted and paid for, but those remitted after this date will be held until notice is given of the resumption of redemptions. Mean while the whole force of the agency will be employed on the assortment of the notes already returned, in order to enable it to make calls upon the banks to reimburse the Treasury for their redemption. It is hoped that redemptions will be resumed within two or three weeks. The cessation of redemptions need not prevent compliance with the call for the additional five per cent deposit. The larger the amount of legal deposit under the call the sooner the agency will be enabled to resume redemptions. There seems to be some misunderstanding as to the operation of the additional call. The deposits made under this call will be treated simply as are advances from the banks to reimburse the Treas-

Boston, Mass., Sept. 19, 1874. General Butler addressed the voters of Essex this evening upon the political issues of the day, and requested their suffrage. His speech was in substance the same as that delivered in Gloucester. The condition of Southern affairs received particuiar attention and he argued that if he were refused a re-election one faithful watchdog would be removed from the tower of right and of justice, and such a howl would go up from rebeldom as had not been heard since the beginning of the war. In addition to the points touched upon in the first speech he spoke of the proposed reciprocity treaty, expressing himself as unalterably opposed to it on the ground that it would strike a death-blow to the shipbuilding interests of his district. He was opposed to civil service reform, because men would be kept in office all their lives, and it discriminated against the poor soldiers and their widows in favor of those who spent their lives in accumulating mere book learning, which was not practical.

The attendance was as large as the hall would accommodate, and considerable enthusiasm was manifested. speech he spoke of the proposed reciprocity treaty,

KELLOGG REINSTATED.

The Old Administration Again in Power.

The Government Protected by Federal Troops.

NEW ORLEANS, La., Sept. 19, 1874. Governor Kellogg and such other State officers as are now in the city went down to the State House at ten A. M. to-day, and the military authorities formally delivered up the building to them and furnished a military guard. The Secretary of State, Speaker of the House, the Lieutenant Governor and the Attorney General are somewhere in the North, and it is understood that Governor Kellogg has telegraphed for them to come back at once. He has also telegraphed to the members of Congress, who are all absent from the State except Congressman Smith, requesting them to return at once to their respective constituencies.

Governor Kellogg yesterday sent the following

to Congressman Sypher and Senator West:to Congressman Sypher and Senator West:—
I see by the Western papers that you have severely criticised my leaving the State House. I left it on Monday at the earnest solicitation of all our friends, the Lieutenant Governor and Speaker of the House being absent from the State. An accident to me, they felt, would have made compications desperate. There were none but colored militia in the State House, and had they made any resistance they would have been ourned out and massacred, the building being entirely indefensible. If our friends will come here and help us we will be very glad.

It is understood that of the 600 Metropolitans on

It is understood that of the 600 Metropolitans on duty last Monday only 250 could be mustered today to relieve Baylon's men. The Kellogg men oftered as a compromise to allow Baylon to remain as Chief of Po ice; but he declined the position unless the control of the force was committed to the city.

Colonel Baldy, of the Metropolitans, has taken charge of the stations. Only a few of the Metro-politans are on the streets to-night.

When Governor Kellogg reached the Executive office this morning General Brooke approached the Governor and informed him that he was prepared to turn over to him the State House and all the records and public property belonging to the State which had come into his possession at the time of the surrender of the insurgents to his command. Everything, the General said, would be found precisely in the same condition as it had come into his hands. The Governor accepted the transfer, and General Brooke thereupon immediately

At a mass meeting of citizens held in Delhi to-day, composed largely of the citizens of Franklin and Richland parishes, it was resolved that we recognize no parish ficers holding commissions solely under Kellogg, the usurper, unless force is brought to compel our obedience; that we notify persons attempting to hold office under such circumstances that they are obnoxious, and must give way for those of the people's we hold as infamous those who shall attempt to exercise official functions under a commission from the usurper; that we urge upon all other parties to join in a similar movement.

W. K. EMORY,

Colonel and Brevet Major General commanding.

Much indignation was expressed this morning by the Secretary of War and Adjutant General Townsend at the publication of a forged telegram purporting to be signed by the Adjutant General and addressed to General Emory, saving:-

You will follow out instructions as in former despatches. All turbulent persons must be put under arrest.

This order will be implicitly compiled with. The forged despatch was also telegraphed

North last night by several persons. The Secretary of War has determined to discover the forger, and has taken measures to that end. The actual telegram sent to General Emory merely acknowledged the receipt of his yesterday's despatch.

TENNESSEE'S TROUBLES.

WASHINGTON, Sept. 19, 1874.
The President this afternoon sent the following telegram to Governor Brown, of Tennessee :-

The President this aiternoon sent the following telegram to Governor Brown, of Tennessee:—

EXECUTIVE MANSION, Sept. 19. 1874.

Hon. John C. Brown, Governor, Nashville, Tenn.:—

Sir.—Your despatch of yesterday has been received and referred to the United States District Attorney for the Western district of Tennessee for a report. As there is now no official information of his proceedings here, when his report is received I will give you a more definite answer, or have the Attorney General do so. I will state, however, that it is very gratifying to know that the State authorities of Tennessee are disposed to suppress and punish a class of lawless acts so dangerous to life and so opposed to every political, financial and moral interest of the State.

But the constitution makes it my duty to enforce the acts of Congress, and Congress has passed laws giving the United States jurisdiction in such cases as are referred to in your despatch. No special order has been given to, the lederal officials in Tennessee further than the citcular of September 3 of the Attorney General, which is general in its nature, and constitutes instructions to all marshals and district attorneys, whenever violations of said acts may occur. I will add that the State and general governments, as you are well aware, may have concurrent jurisdiction over the same offence, as, for example, in cases of counterfeiting, and the action of the State anthorities in such cases does not prevent the general government from proceeding against the effenders.

Senator Brownlow Thanks Governor NASHVILLE, Sept. 19, 1874.

Senstor Brownlow has sent the following letter to Governor Brown:—

KNOXVILLE, Sept. 12, 1874.

My Dear Sir—I cannot refrain from expressing my thanks for the energetic steps you are taking for the preservation of peace and the apprehension and punishment of the assassins who have so much outraged humanity and discredited the State. The promptness with which you have acted vindicates you from any imputation of acting under federal constraint or want of earnestness. I hope your efforts may soon be crowned by the full vindication of the law. Very respectfully, W. G. BROWNLOW.

AMUSEMENTS.

Gouned Night with Thomas' Orchestra. A night at Central Park Garden devoted to the works of a particular composer has become an unfailing attraction. Beethoven, Wagner, Mendelssohn, &c., have presided in turn over those tone feasts, the host last evening being Gounod. Despite the threatening aspect of the weather the hall was absolutely crowded. The following works of the famous French composer were given :-Marche et cortége, "Reine de Saba:" overture, "Le Médécin Maigre Lui;" waitz, "Rendezvous;" meditation, bailet, "Faust," and symphony, No. 2. E flat. The symphony was the pièce de resistance. The four movements are:—1. Adagio-allegro agritato; 2. Larghetto non troppo; 3. Scherzo; 4. Finale. The second movement is the most grateful and attractive, and the themes are woven together as daintily as a bridativell. The work cannot, however, be considered as one that will gain favor in the great symphonic world. It lacks inspiration, the themes are labored, and except in the larghetto are not of a nature to draw the sympathy of a musician. The coloring is really beautiful, and so varied that it compensates to some degree for the uninteresting quality of the subjects. The finale is exceedingly tame and ineffective. The march from "la fleine de Saoa" is till and inspiring, and will always be a favorite in concerts. The waitz is unworthy of such an eminent writer. A number of strauss' works followed the Gounod selections, and all were played with that wonderful thorouganess and heartiness that this orchestra knows how so communicate to a symphony, a march, an overture, a poem or a waitz. Monday night will be devoted to Scandinavian compositions. neditation, ballet, "Faust," and symphony, No.

Mr. Howard Paul, whose impersonations of character and buffo singing will be remembered some years ago, at Irving Hallin an admirable entertainment, will appear on Monday at the Olympic in several of his popular sketches of character. Major General Shaler acted as chairman, and his aide-de-camp, Colonel Jussen, as secretary. There were eleven field officers present-Colone Spencer, Lieutenant Colonel Kroeger and Major Hailen, of the Fifth regiment; Colonel Villmar, Lientenant Colonel Undekant and Major Sussman of the Eleventh regiment; Colonel Conkling, Lieutenant Colonel Beatty and Major Charles C. Conkling, of the Eighty-fourth regiment; and Lieutenant Colonel Van Wyck and Major King, of the

ant Coionel Van Wyck and Major King, of the Sixth regiment.

There were absent Colonel Sterry, of the Sixth, and three officers of the Ninety-sixth regiments. The first ballot cast resulted as follows:—Two for Colonel Sterry, five for Colonel Villmar, three for Colonel Conkling and one for Caristopher Pullman. The second bailot stood three for Sterry, five for Villmar and three for Pullman.

Colonel Spencer moved to adjourn, as there was no chance of agreeing upon a person. He thought a fuller representation should be present. His motion was carried, and the meeting adjourned without selecting a commander for the brigage. The greatest interest is manifested about the result, and it is more than probable that the contest for the post of honor in the Second brigade will be bitterly disputed.

A STORM IN THE WEST. CHICAGO, III., Sept. 19, 1874. Considerable apprehension was feit here to-day for the salety of the steamer Lake Breeze, from Benton harbor for this port, she being overdue twelve hours, and a tug was sent to look for her and found her, helpless and drifting, some thirty and found her, helpless and drifting, some thirty miles from this port, her machinery being disabled. She was anchored by the tug, which then returned for assistance to tow her in here. Special despatches to the *Tribine* from Davenport and Dubuque, lows, and Rock Island, Ill., give an account of a terrible storm of rain and wind in those localities last evening, by which a great amount of property was destroyed and damaged. At all those places houses were unroofed, walls blown down and fences scattered, while cellars and basements were filled with water. The whole surrounding country was water. The whole surrounding country was nooded. At Rock Island the First Presbyterian church was nearly destroyed, a portion of the roof being litted up and dropped through into the basement, carrying with it the organ, pulpit and noor, and upon these a great portion of the wails fell. It is impossible to estimate the amount of the damage, but it will be many thousand dollars. During the storm a freight train on the Illinois Central Railroad, when three miles west of Dunletts, ran into a break caused by the flood. The engine was completely wrecked and the engineer, Andrews; the fireman, Orton, and a brakeman named Allison were buried beneath the ruins. They were taken out in a terribly scalded and bruised condition. Allison died soon after. The other two are lying in a critical condition. The whole surrounding country At Rock Island the First Presby

FATAL ACCIDENT.

Shortly after six o'clock last night an unknown man, roughly dressed, of medium height and build, attempted to jump from the Battery pier dock to the steamer Thomas Kiley, lying close by, but accidentally fell between the two and received fatal internal injuries. He was picked up by the boat's pilot, Captain Albert, who summoned a conveyance and carried the wounded man to Bellevue Hospital, where he died at half-past eight o'clock. There was nothing about the passes of the conveyance and carried the wounded man to Bellevue Hospital, where he died at half-past eight o'clock. There was nothing about his person to lead to his identification, but the indications are that he is a boatman engaged in the locality where the accident occurred, and it is expected that his friends will appear and claim the body.

NAVAL INTELLIGENCE.

WASHINGTON, Sept. 19, 1874. The United States steamship Wachuset arrived at Key West on the 16th inst. All was well. She saw the Ossipee on the 9th, standing in for Samans Bay.
